State regulations require regular inspection/maintenance of certain types of wastewater treatment and disposal systems. Regular inspections and maintenance help protect the homeowners' financial investment and ensure that systems are performing as designed. Certified Operators are licensed professionals with the required training and experience to inspect and maintain systems.

Note: This is not a complete listing of Certified Subsurface Operators. The operators listed above have requested inclusion this list, or currently/previously provided services to residents of Person County. *Inclusion on this list does not represent a recommendation or referral by the Person County Health Department.*
