OFFICE OF THE COUNTY MANAGER

304 South Morgan Street, Room 212 Roxboro, NC 27573-5245 336-597-1720 Fax 336-599-1609

April 18, 2022

Dear Person County Residents:

I am pleased to present Person County's Fiscal Years 2023- 2027 Capital Improvement Plan (CIP). The CIP is an important planning tool for our County, reflecting the Board of County Commissioners' priorities for large capital projects costing more than \$50,000. In addition to Person County Government, this plan also incorporates the needs of our partner agencies- including Person County Schools and Piedmont Community College (PCC) - given that counties are statutorily responsible for the provision of educational facilities. We also include capital needs for two other organizations for which the County owns the buildings: the Person County Museum of History and the Person County Senior Center.

The development of this plan takes into account many factors including the current economic and fiscal climate, logistical and financial constraints, as well as competing demands and priorities for county funds. The most critical capital needs are those that address life-safety issues. Once those needs are identified, we work towards a balance of needs and priorities within our logistical and financial constraints. This plan identifies the anticipated funding sources needed to meet these priorities. Although the projects in this plan span the next five years, the fiscal impacts extend far beyond. Projects that are financed incur debt service payments typically over a fifteen to twenty year period. Therefore, the full array of funding sources needed to support the projects as well as potential impacts to future operating budgets are also presented. The Board of Commissioners reviews the five year CIP every year, but only funds the projects on an annual fiscal year basis.

For the previous Fiscal Year (2021-2022), the Board of Commissioners appropriated \$2,511,718 from the General Fund. The large majority of this expenditure was for Person County Schools' maintenance needs. The Fiscal Year 2022-2023 CIP increases spending for all three entities:

County Projects: \$3,047,716

Piedmont Community College: \$1,912,968

Person County Schools: \$1,117,449

The total approved funding amount for the upcoming Fiscal Year is \$6,078,133. Unlike current year spending, next year's funding sources are diversified. The General Fund contribution is \$3,300,000; the recently created Capital Investment Fund Balance contributes \$1,503,241; from the Water and Sewer Reserve Fund will be a \$1M appropriation for the City's Western Sewer Expansion project; \$114,394 will come from Stormwater Fund Fees; two Parks and Recreation Trust Fund Grants will be applied to projects in the amounts of \$63,300 and \$24,198; and the other funding source will be the Community Development Projects Fund from the County's contract with Republic Services in the amount of \$73,000 for the conversion of an old landfill to a county park.

An important element of this CIP is the debt analysis summary and the table and graph showing the future debt service levels for Person County Government. The County's total outstanding debt at June 30, 2022 will be \$8.7M, which is a 17% reduction from the prior year. The County, working in partnership with

Person County Schools, is planning to issue new debt in FY23. The first financing of \$10M is planned as part of a larger financing plan over the next four years, totaling \$38M.

Please keep in mind that this Capital Improvement Plan is just that- a plan- and while a great deal of effort and analysis have gone into this, it offers a starting point for annual comparisons, fiscal changes, unforeseen needs, and a place where public discussion can begin. The CIP will continue to be reviewed throughout the year, presenting any recommended changes to the Board for consideration. This review is critical as new information about our capital needs, our fiscal health, financing tools, and existing project scheduling arises.

Person County Government takes great care and pride in being fiscally responsible. This CIP demonstrates our commitment to provide not only sustainable infrastructure, but improvements and enhancements to our community and quality of life. County staff looks forward to working with the Board of County Commissioners and our community partners as we implement the Fiscal Year 2023-2027 Capital Improvement Plan.

Sincerely,

Heidi N. York

County Manager

Heirs York

Objectives of a CIP:

- Create a plan to organize long term capital needs in a manner to promote discussion regarding priority, feasibility, timing, potential costs, financing options and future budgetary effect.
- Limit projects to those costing \$50,000 and over in the plan.
- Present an overview of requests submitted by Person County departments,
 Piedmont Community College and Public Schools.
- Facilitate the exchange of information and coordination between the County, the community college and the schools on capital planning.

Steps in developing a CIP:

- Determine capital needs for all departments and certain County-funded agencies.
- Review priorities and assess proposed capital projects in relationship to these priorities.
- Make recommendations to the Board of County Commissioners on a project's timing, priority and possible financing options.

Categories of projects:

Person County Government Piedmont Community College Public Schools

- Each project includes a description, a timeline for construction and operating costs, and the current status.
- Also included are graphs that summarize revenue sources, projects by function, projects by type, and outstanding debt.

Criteria in determining project status:

Safety

- Is public health or safety a critical factor with regard to this project?
- What are the consequences if not approved?

Mandate

- Is the project required by legal mandates?
- Is the project needed to bring the County into compliance with any laws or regulations?

Timing and Linkages

- What is the relationship to other projects, either ongoing or requested?
- Does the project relate to a County-adopted plan or policy?

Economic Impact

• Will this project promote economic development or otherwise raise the standard of living for our citizens?

Efficiencies

- Will this project increase productivity or service quality, or respond to a demand for service?
- Are there any project alternatives?

Service Impact

- Will this project provide a critical service or improve the quality of life for our citizens?
- How will this project improve services to citizens and other service clients?
- How would delays in starting the project affect County services?

Operating Budget Impact

- What is the possibility of cost escalation over time?
- Will this project reduce annual operating costs in some manner?
- What would be the impact upon the annual operating budget and future operating budgets?

Debt Management

- What types of funding sources are available?
- How reliable is the funding source recommended for the project?
- How would any proposed debt impact the County's debt capacity?
- Does the timing of the proposed construction correspond to the availability of funding?

Completed Projects

Person County Government:

- Wireless Broadband Project (\$250,000)
- Fiber Project (\$3,172,446)
- Bushy Fork-roof replacement (\$47,639)

Piedmont Community College:

• Telephone System replacement (\$184,618)

Public Schools

• PHS ADA Improvements (\$364,913)

Ongoing Projects

Person County Government:

Permitting Software (\$292,356) – Implementation completed; working through some reporting issues…waiting to closeout project until fully resolved.

Enhanced Camera System-LEC (\$93,251) – Fiber was installed to exterior cameras at the Law Enforcement Center. Few items left to be completed. Expected completion by end of June 2022.

Executive Hangar Construction (\$5,201,336) – Design and bid process has been completed. The construction contract has been executed, and project is expected to be complete by end of May 2022.

IT Building Room Addition (\$109,800) – Project anticipated to be complete by end of June 2022.

LEC Water valves/actuators (\$60,000) – Project anticipated to be complete by end of May 2022.

New Roof-Old Helena Gym (\$253,287) – Bid expected to be awarded in April 2022.

P&R-ADA Accessibility Safety Surfacing (\$142,721) – Completion expected by end of June 2022.

P&R-ADA Parking Areas (\$60,000) – Completion expected by September 2022.

P&R-Athletic Field Light/Pole Upgrades (\$50,000) – Completion expected by end of June 2022.

Human Resources Software - NeoGov (\$182,767) – Project was approved in FY 2022 to be expensed over a 4-year period. FY 2023 is the second year of the implementation phase.

Piedmont Community College:

Early College- POD Building (\$556,740) – Construction of a new building for the PECIL program has been completed. The County is contributing to PCC in 5 annual installments for a total cost of \$556,740. FY2022 represents the 3rd payment with the last payment to occur in FY2024.

Environmental Controls for Buildings (\$325,000) – No expenditures reported to date, project still in progress.

Public Schools:

Southern Middle School-Fire Alarm upgrade (\$200,000) – Project is primarily completed with a few items remaining.

Oak Lane Chiller (\$150,000) – No expenditures reported to date, project still in progress.

North Elementary Chiller (\$150,000) – Received bids, award still pending.

North End Elementary Chiller (\$125,000) – Chiller expected to be delivered in May 2022 and fully installed by July 2022.

Stories Creek Elementary – Heat Pumps (\$140,000) – Received bids, award still pending.

Earl Bradsher Elementary – HVAC Units (\$115,000) – No expenditures reported to date, project still in progress.

Oak Lane Elementary - roof replacement (\$778,868) — Bid out in March 2022, awaiting responses.

South Elementary - roof replacement (\$51,430) – Schools decided against proceeding with this project.

		TOTAL DEBT SERVICE OUTSTANDING		<u>\$8,700,122</u>	

Current Debt Analysis

There are two standard ratios that measure debt service levels and the capacity for taking on additional debt. These ratios and their meaning for Person County are described as follows:

 Debt to Assets Ratio: Measures leverage, the extent to which total assets are financed with longterm debt. The debt-to-assets ratio is calculated as long-term debt divided by total assets. A high debt to assets ratio may indicate an over-reliance on debt for financing assets, and a low ratio may indicate a weak management of reserves. At FY 2020, the debt to assets ratio for Person County was 11% (drops to 9% in FY 2021), while the other 20 counties with similar populations reported an average of 32%. Person County was the 4th highest county for the amount of total assets reported in comparison to these other counties, but rated the 6th lowest Debt to Assets Ratio, as well as the 6th lowest long-term debt amount. Results appear to indicate that Person County is minimally leveraged in debt compared to the population group average. As displayed in the chart below, Person County's debt to assets ratio has declined from 13% in FY 2019 to 11% in FY 2020. This reduction is due to the yearly paydown of debt. A slight uptick in FY2018 is the result of issuing new debt for the Senior Center renovation and construction of Public Safety Communication Towers. Strictly from a current reporting perspective on the County's debt to assets ratio, the data supports that the County is more than sufficiently leveraged to take on additional long-term debt. A gradual change or level trend indicates to credit agencies a more strategic approach to the management of the County's assets. Borrowing rates have been significantly low due to the Federal Government's attempt to provide some economic relief in response to the Coronavirus pandemic, which has provided a favorable environment for debt borrowing. However, market expectations for a more aggressive, quicker rate hike cycle have risen in an attempt to battle inflation. At this time, Person County is planning to issue \$10M in debt in the first part of 2023 for deferred school maintenance projects. It is not anticipated that the interest rate increases will be severe enough to alter the County's plan to move forward with the debt issuance. The debt schedule will be provided once rates and timing of debt payments are determined.

Person County's						
<u>FY</u>	Debt to Assets Ratio					
2016	14%					
2017	14%					
2018	15%					
2019	13%					
2020	11%					

• <u>Debt Service Ratio</u>: Measures financing obligations, provides feedback on service flexibility with the amount of expenditures committed to annual debt service. The debt service ratio is calculated as annual debt service divided by total expenses. General accounting guidance discourages this ratio from being higher than 15% for a maximum benchmark. Any percentage higher than this can severely hamper the County's service flexibility. At FY 2020, Person County's debt service ratio held at 4.1% (dropped to 3.5% in FY 2021), which is just over half of the population group's average ratio of 7% for FY 2020. This level trend indicates a tight management of its debt service costs in relation to total expenditures. As it stands now, Person County is in a favorable position to take on more debt when comparing the debt service ratio levels to its peer counties. A consistent debt ratio level indicates a stronger management of financing resources in relation to the amount that is available for other services.

FY 2020	Debt Service Ratio

Above chart displays Person County's current debt service schedule. It is estimated that the County's total outstanding debt at June 30, 2022 will be \$8.7M.

\$10M in new debt is proposed to be issued in FY23 as part of a \$38M planned financing over the next 4 years to address school maintenance projects. The debt schedule will be provided once rates and timing of debt payments are determined.

Graph below represents the County's outstanding debt service over 10 year period. Projection of \$8.7M at end of FY22 is a 17% reduction from the prior year.
