Sound Off on Heat Safety

North Carolina summers are HOT! Heat is one of the leading weather-related killers in the United States, resulting in hundreds of fatalities each year and even more heat-related illnesses.

Here are a few guidelines to follow to avoid health threats:

1. Monitor heat index (we do this closely at PCRC).
2. Schedule physically demanding activities for cooler parts of the day or year.
3. Provide periodic rest breaks for employees.
4. Provide frequent fluid intake.
5. Increase air flow.
6. Train supervisors and employees to identify heat stress.

TEXT ALERTS

Are you aware of our text messaging program called PI Updates? If not, please contact the front office at 336-599-7571 to sign up. This program is being used to send out updates, schedule changes, announce weather-related closings and other information that is important to employees of Person Industries. Call to sign up today to be included in the latest updates and/or schedule changes. Standard text rates apply.

Stakeholder Surveys

Each year, PI sends out satisfaction surveys for our stakeholders to let us know how well we are providing services. The 2023 Satisfaction Survey has been made available on Person Industries' page on the Person County website. The survey can also be accessed through a link on the Person Industries' Facebook page. Please take a few minutes to complete the survey.

Program Manager Bailey Hunt coordinated a fun and creative Quarterly Excellence Event that had a *groovy* theme—Tie Dye Tuesday and Funky Music. Employees got to choose their own colors and design, making something they can utilize over and over again. The event was lots of fun, but quite messy, resulting in beautiful works of art. The afternoon was enjoyed outside while recognizing those with birthdays during the second quarter of the year. Thank you Bailey for putting your skills to great use with our consumers, helping them make some wonderful memories!
