

TIMMONS GROUP GEOSPATIAL SOLUTIONS

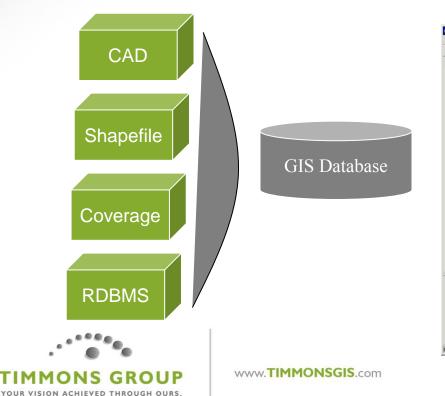

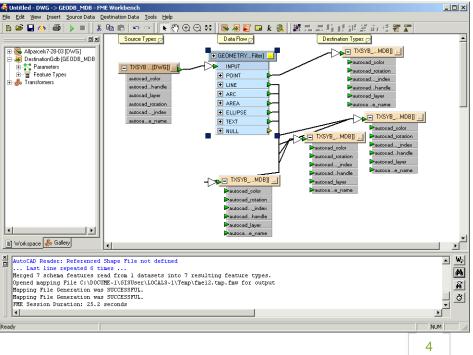

"So, what do you do?"

Data Collection and Modeling

- Data Collection and Aggregation
- Data Model Development
- Annual data collection

Site and Environmental

Cultural Resources

Watersheds, Wetlands, Hydrography

Threatened and Endangered Species

Soil, Floodplains

EPA Superfund Sites

Infrastructure

Road Centerlines, Railroads, Airports, Schools, Hospitals

2',10' and 20' Contours, Topography base map

Sewer and Water Service Areas

Utility transmission and distribution lines

Critical Infrastructure

Land Records

Parcels

Building Footprints

Assessment Data

County boundaries, Municipal Boundaries

Zoning Classifications

Background Data

High Resolution State Imagery

High Resolution Global Imagery

Topographic Maps

Street Maps

Digital Elevation Models

Risk Profiles

Hurricanes

Earthquakes

Flood Risks (levees, storm surge, flow patterns)

Wildfires, Tornados, Hail

Sinkholes and soil susceptibility

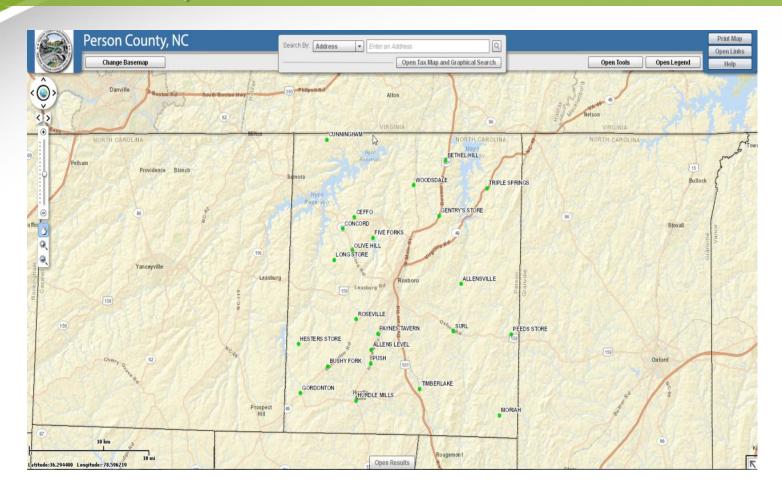

Private Access
